

Ferretti 720

Ferretti 720

The Ferretti Yachts 670 is a true floating Mediterranean villa, combining innovative design, exceptional performance, and refined onboard comfort. With its Class A hull and advanced engineering, it delivers smooth handling, dynamic performance, and effortless control.

One of the highlights is the spacious flybridge, among the largest in her class, offering flexible layout options, freestanding furniture, and a full-width sunbathing area. The bow is equally well designed, featuring a comfortable lounge with dining space and adjustable sunbeds, creating the perfect setting for relaxation both day and night.

The aft area includes a hydraulic bathing platform, sun loungers, and dedicated storage for water toys such as SEABOBs. Inside, the main saloon seamlessly connects with the cockpit through a fully opening glass partition, creating a bright, open living space.

The interior layout is designed for both comfort and functionality, with a generous dining area for up to 8 guests, a full-beam master cabin with a separate wardrobe and bathroom, as well as well-appointed VIP and guest cabins. High ceilings and smart sound insulation further enhance the onboard experience.

Price: 4,320,000€
