

PRESTIGE F 6.7

PRESTIGE F 6.7

The F6.7, the flagship of the new F-Line generation, elegantly celebrates the spirit and refinement of the range. It represents the maturity of a concept that has progressively redefined life on board, where space, light, and fluidity come together to create a natural and harmonious experience. This vision takes shape through exacting craftsmanship, visible in the choice of materials, the quality of the finishes, and the intelligence of the layouts. The F6.7 thus expresses contemporary elegance, simple and enduring, fully celebrating PRESTIGE Art of Living at sea.
