# PRESTIGE-M48

This 50-foot catamaran affords an interior volume equivalent to that of a 60-foot motor yacht. The M48 benefits from a wider beam than a monohull motor yacht of equal length, allowing for a full-beam owner's suite, as well as entirely unique guest cabins. PRESTIGE's experience in the construction of seaworthy motor yachts has benefited the M48 with an excellent stability and handling at sea, for smooth, enjoyable cruising in any sea conditions. The performance of the M48 has been optimized for a cruising speed of between 8 and 18 knots, with a propulsion provided by 2 x 320 HP. The top speed is 20 knots. At lower speeds, a multihull on a wet surface area that is 20% less than that of a classic hull results in lower fuel consumption than a motor yacht of the same proportions and affords greater range and autonomy. Thus, fuel consumption is reduced, and cruising range varies from 250 nautical miles at 18 knots to over 600 miles at 8 knots. AG64 with its yacht experience highly recommend this fantastic model for cruising season 2025. For special offer and trade-in welcome.
