

Prestige M7

Prestige M7

Specification

More than ever, the M7 invites you to savor the PRESTIGE *Art de Vivre*. Share the privilege of a serene cruise with friends and family, discover sublime new anchorages, and immerse yourself in luxurious, refined comfort: these are the promises of the new M7. At sea or at anchor, the M7 offers a yet unimagined quality of life on board for her category. Her multihull configuration offers space and an exceptional level of fit and finish, all in perfect harmony with nature.

The Prestige M7 is a motor catamaran that combines the space of a villa, the stability of a multihull, and the efficiency of modern engineering.

Its key feature is its catamaran architecture, which offers a fundamentally different level of comfort compared to classic yachts. CAT construction offers up to 200 square meters of usable space, comparable to 70-75-foot yachts, while operating more efficiently.

NON-step concept is implemented on board: panoramic glazing, a single saloon with access to the cockpit, a full-size flybridge, and private relaxation areas.

The space feels like a modern waterfront residence.

Its key advantage is stability. Minimal pitching, both during transit and at anchor, ensures a high level of comfort and safety. Efficiency:

- 2 Volvo D8-550 engines
- Cruising speed of 17 knots
- Maximum speed up to 20–22 knots
- Range up to 1,300 nautical miles

Optimized hulls reduce fuel consumption and allow for long-distance cruising.

The layout offers up to 4 cabins for 8 guests, including a spacious master suite with panoramic views, as well as separate crew areas.

The interiors are finished in premium materials with an emphasis on light, texture, and comfort.

Key benefits:

- Maximum space and privacy
- Stability and safety
- Fuel efficiency over distance
- Villa-like comfort

While a classic yacht requires a compromise between space and efficiency, the Prestige M7

Length: 17.94 m

Engines: VOLVO 2 x D8-550 CV - V-Drive CV

Fuel capacity: 2900 l

Hull beam: 7.54 m

Cruising speed: 17 nd

Draft: 1.55 m

Brand: Prestige

Maxi air draft: 5.45 m

Light displacement: 39499 kg

Full load displacement: 51457 kg

Max. speed: 20 nd

Water capacity: 760 l

Hot water heater capacity: 120 l

Built: 2026

Architect: Garroni Design - Marc Lombard Yacht Design
